

IN MY HEAD

Tormented, over-worried
Neurotic, always hurried
I try to swim with a coat of lead

And when I bleed my finger
My sharks are sure to linger
And I get buried in the red

CHORUS

Will you save me tonight
Rescue me from my mind
Would you dive off the deep end after me
Will you save me tonight
Will you stand up and fight
Can you save me from something you can't see

Sarcastic, sentimental
Self-willing detrimental
I'll take the hit to save the world

But when my fears surround me
I know they're sure to drown me
And I get carried in the swirl...

CHORUS

*I take myself
To scary places, places in my head
And hope you find me...*

(tormented, over-worried)

CHORUS

Will you save me tonight
Rescue me from my mind
Would you dive off the deep end after me
Will you save me tonight
Will you stand up and fight
Can you save me from something you can't see
Can you save me from something you can't see
Can you save me from something that is me?

MAKE THIS MINUTE LAST

One last dance
That's all I ask
One last time to touch you
One last chance

Hold me close
Let me feel
Let me breathe you in
And keep you with me

Just give me the time I ask for
one minute pretend you won't go

CHORUS

Let's forget the past
Let's forget about tomorrow
Feel my soul now next to yours and make this minute last

One more day
To hear you laugh
One more walk beside you
Before we split in half

One more night
That's all I want
One last time to be with you
Before you go

Just give me the time I ask for
one minute pretend you won't go

REPEAT CHORUS

*Look inside your soul
Only you can find the answer*

REPEAT CHORUS

Let's forget about our worries
Feel my soul now next to yours and make this minute last

One more life
To spend with you
This is all I ask for, nothing more

SIMPLE MAGIC

Seeing you just kills my dignity
A deadly kind of high is simply breathing you in
Something in the way you look at me

You've occupied my every thought lately
Not sure if you want to drive me crazy
Maybe you can read my mind

CHORUS

Oh, I'm feeling your simple magic, oh
Oh, I'm fighting the curse of your love
And I can't take it

I feel so alive yet I can barely breathe
I feel my new addiction invading every inch of me
Something in the way I just can't sleep

You penetrate my every thought lately
Not sure if you mean to drive me crazy
Maybe this is meant to be

CHORUS

*I don't know why
I'm hypnotized by you
It must be written in the stars
Inscribed in my mind*

CHORUS

I'LL BE ALRIGHT

Waiting up, but it's getting late
Sometimes I wonder why I wait
I should know better but I hope tonight
Will be different

Raindrops fall on the windowpane
Locking me inside my brain
I don't want to go out but
I don't want to be alone

CHORUS

And every time I tell myself
I'll be alright, I'll be alright
But here I am, not better now than the day before
And I know I will never find
A better life until I've tried
And when I try
I'll be alright

Mirror cracks and it makes me smile
Looks like me in a different style
I only wish that I could be what I could be

CHORUS

*I'd wake up cold afraid of my shadow
Scared of things that I have seen in my dreams
All my fears have been self-created
Watch them burn so deep within my soul, in my soul
In my soul...*

CHORUS

UNDERNEATH YOUR SKY

Every star I had wished on let me down
Every clover I picked was dried and brown
Every day I got by..

When I met you I recognized myself
You opened my mind & made me well
I had wished for you a million times...

CHORUS

Underneath your sky
There's a place where I can run to
Underneath your sky
I feel safe awakened by you
If I could alter time
I would stay forever in this life
Underneath your sky

I've always been strong but didn't know
I have always been brave but it didn't show
I had never been here till you brought me home

CHORUS

*Underneath your sun
I am free
Underneath your stars
I can dream
Surrounded by your love
I am complete and always will be*

CHORUS

Underneath your sky
There's a place where I can run to
Underneath your sky
I am strong, completed by you
If I could alter time
I would stay forever in this life
Underneath your sky

GUARDIAN ANGEL

Do you know what it's like
To carry more than one can bear
Can you empathize

I didn't ask for advice
I only wanted you to care
Didn't ask for much

CHORUS

I've been looking for my guardian angel
Cause I can't make it alone
I've been searching for someone to save me
But I'm losing my hope

You could save my life
If I could keep you on the phone
It seems you never tried

I guess in time
We walk this nowhere road alone
Never knowing we could share the ride

CHORUS

*I've been losing my mind
I've been searching for signs I'll never find
In the evening sky
Will I ever know?*

CHORUS

ПЕСНЯ О ТЕБЕ

Не держи, не держи на меня зла
Хотя я знаю, что ты всё простил
Если б я могла тебе всё сказать
Если б я могла тебе всё объяснить

А вокруг тишина
Только сердце стонет в груди
Если б ты только знал
Что я помню
Помню о тебе

Ты совсем, совсем мне чужой
Хотя я знаю тебя всю жизнь
Если б я могла тебе всё сказать
Если б я могла твои раны зашить

А вокруг тишина
Только сердце плачет в груди
Если б ты только знал
Что я помню
Помню о тебе
О тебе.

GHOST WANDERING THIS EARTH

One step forward, hundred steps behind
I guess my progress hasn't gone quite right
Taking pills and reading books to just escape the day
What can I say

CHORUS

Maybe I am lost
Maybe I am scared to see the truth
I'm like a ghost wandering this earth
I feel blind
I'm a fire put out before its time
I'm just a ghost wandering this earth
I'm a ghost wandering this earth

So this is what it feels like to lose track of time
Sometimes it scares me yet it feels so right
It's only the beginning but I'm ready for the end
What can I say

REPEAT CHORUS

*Is it best to fight and lose or never fight at all
You never want to say you lost the game cause you couldn't win them all
Is it best to dream a dream and hide it from yourself
Or are you better off to take that chance and do the best you can
I'll do the best I can...*

CHORUS

But what if I'm lost
What if I'm too scared to see the truth
I'm like a ghost wandering this earth
I feel blind
I'm a fire put out before its time
I'm just a ghost wandering this earth
I'm a ghost wandering this earth

WHEN I COME HOME

My heart is beating fast
I'm going home today
I sit and watch the clock
Waiting for my plane

But why I'm scared to leave
Is not a fear of flight
Seems like a life-long dream
Since we said goodbye, oh

CHORUS

Will I know it's you
Or will I pass you by
Will I know the truth
When I see your eyes
Will I be alone
When I come home

So has it been too long
Will you want me back
Or did the parted sea
Drown what we once had

I'm like a falling leaf
To new, familiar sites
I'm reaching for my tree
But drifting out of sight, oh

REPEAT CHORUS

*When I come home
Will you still be there?*

REPEAT CHORUS

IF I COULD READ YOUR MIND

You're standing next to me
You're wearing out my nerves
I think we disagree
But we haven't said a word

CHORUS

I think we'd be just fine
If I could read your mind

We're driving in the rain
Not sure of what will come
You're lost but just too vain
You'd drive me to the sun

CHORUS

*I'm trying to communicate
I'm living with a curse I just can't break
I'm tired of cleaning up your mistakes*

I've listened to myself
You never were so kind
To help us work this out
And I'm tired of flying blind

CHORUS

You're standing next to me
You're wearing out my nerves
I think we disagree
But we haven't said a word

CHORUS

KILLING MY DREAM

Produced by Jack Douglas

Never thought that I could break in two
but you have shown me
You have always told me I could count on you
but where did you go

I'm dreaming of yesterday
dreams won't hold me down
as you push me away

CHORUS

Am I really alone
right next to you
or am I chasing a ghost
of what I once thought was true
Don't worry, everything's fine with me
I won't let on that you're killing my dream
Killing my dream

Never thought that I could hurt so much
but you have shown me
you have always told me I should play it tough
but how can I pretend

I'm dreaming of yesterday
Oh, I know the truth
Still too scared to be brave

REPEAT CHORUS

*So now it's done, tell me
does it make you feel right
To be the one to break me down inside*
